

Lifetime Warranty

The AIRQC- ELECTROSTATIC FILTER is warranted against defects in materials and workmanship from the manufacturer for the life of the filter. This warranty will be invalid if the below cleaning instructions are not followed.

For more information, contact your retailer.

Dan's Air Duct Cleaning & Dryer Vent Cleaning

TO CLEAN:

Remove filter from unit and rinse thoroughly every 30 days. We recommend that a mild detergent be used when necessary to remove stubborn dirt and stains. Afterwards, rinse thoroughly (opposite the direction of the air flow) and let air dry completely before reinstalling with the arrows pointing in the direction of the air flow. The life of the filter will vary depending upon conditions and usage. It is recommended that any filter be replaced when signs of insufficient filtering become noticeable.
